Quality Improvement

Quality improvement is all about making things better. Improving our care and providing the best possible experience for all our service users, carers and staff.

East London NHS Foundation Trust (ELFT) is on a journey to provide the highest quality mental health and community health in the country.

In Newham we are working together to make quality improvement a reality for all. Join in by starting a QI project or learn from an existing one. Use the support of our QI coaches, sponsors to help us on this journey of continuous improvement
