

# ELFT's QI Projects

Nb. of Active Projects

# 195

Record Number	Title	Aim	Location
121608	Improving the efficiency for the uptake of recommended medication for persistent pain patients, between the community chronic pain service and the patients general practitioner.	To have Increased the Uptake of Medication for Patients in our Pain Service as well as Reducing the Delay in Recommended Medication being prescribed by the GP by at least 50% with an ideal delay of under 7 days.	I-health chronic pain community services/MSK/Physiotherapy
122757	Enjoying Work - SPoA Team	To increase enjoyment at work by 20% by March 2020	SPoA, Single Point of Access - Queensborough House, Dunstable
124236	John Howard Centre Unit - Sexual Safety Collaborative	To increase the percentage of service users and staff who feel safe from sexual harm within mental health and learning disabilities services	John Howard Centre
124255	Ruby/Ivory Wards - Sexual Safety Collaborative	To increase the percentage of service users and staff who feel safe from sexual harm within mental health and learning disabilities services	Newham Centre for Mental Health
127250	Pressure ulcer reduction Project	To improve the quality of life by reducing the number of patients with pressure ulcers by 10% by June 2022 across ELFT	ELFT Community Health Services, ELFT CHS
130002	Service User Involvement with Staff Interviews	Increase Service User/Carer overall satisfaction with the process of involvement in staff interviews from 30% to 75% by 31 March 2023 (Operational definition of very satisfied and somewhat satisfied)	People Participation Newham
130193	Increasing the Co-production of Improvement	To increase co-production of improvement across ELFT	
130319	Time to Hire	To reduce the time it takes to hire (from advertising a role to offering an unconditional offer of employment) from 73 days to 45 days for chosen directorates/services by 31st December 2021	People & Culture
132143	Improving responsiveness of ad hoc information requests	To ensure no information request waits over 14 days unless agreed by requestor and informatics by March 2021	The Green
134076	Increasing the uptake of group therapy at Tower Hamlets Talking Therapies	Increase group uptake (% patients moving into groups stage in therapy) by 50% by January 2022	Tower Hamlets Talking Therapies
134792	Quality Improvement Team Welcome Project	All staff joining the QI Team to feel well equipped and prepared in their first two weeks by receiving the induction process (i.e. scoring their experience 4/5 or above)	ELFT QI Team
135972	Armed Forces Community at ELFT: meeting the required standards of the Veterans Healthcare Alliance	We commit to work together in partnership to build health and social opportunities for Veterans and their families to ensure acceptance and adding value to the Veterans community	Veterans Healthcare Alliance
136992	Improving access to preconception counselling for women with serious mental illness (SMI)	AIM: To increase the number of referrals for Perinatal preconception counselling to 3 per month by August 2023	City and Hackney - Perinatal Mental Health Service
137714	Return to workplace - Quality	for all staff in the QI department to have a positive or very positive experience* of returning to office-based working by end of March 2022	QI Team

	Improvement Team		
139514	Improving access to DeanCross	-To improve access to Service Users to DeanCross to represent the population of Tower Hamlets -To increase access of BAME Service Users by 30%	Dean Cross Personality Disorder Service
139542	START	To improve physical health and well-being of services users by 20% (by improving self-worth, self-care and activity levels) by Nov 2022	Butterfield Ward - Wolfson House
139860	Trust Wide New Starter Project (Smart Card /IT)	To improve the time that staff are equipped with systems access and digital within 5 days by March 2022	QI Team
139978	Improving access to self-service analytics across the trust	To increase the average number of people using self-service PowerBI analytics on a weekly basis from an average of 40 per week (0.5% of permanent staff) to an average of 400 per week (5% of permanent staff) by September 2023	Informatics department, The Green
139985	Reducing Agency Spend	To reduce Agency spend by 25% by Dec 2022	Trust-wide
140053	Extra Care	To improve the effectiveness and quality of observation practice at NCFMH to 95% by April 2023. Operational Definitions: Good quality extra care practice = Service user involvement, clear rationale for observations, clear escalation process, specifies how often checks should be done, what actions the observer should take when carrying out checks. Effective extra Care = There should be a care plan on Rio and on the observation folder, reviews should be done as per policy (24 hour nursing / 72 hour MDT), where observations are terminated, there should be a clear reason for this on the progress notes and it should be clear who is making the decision. Checks should be done timely and clearly documented.	Newham Centre For Mental Health
140288	Cervical Screening - Reducing Health Inequalities in Primary Care at East London NHS Foundation Trust	To increase cervical screening uptake amongst the 25-64yrs age group at Cauldwell Medical Centre from 54% to 80% by March 2023	Across Primary Care
140547	Crisis Line/UAT QI Project	To improve staff experience to 50% reporting enjoying work by August 2022.	City and Hackney Crisis Team
140950	To improve patient experience within TH CAMHS triage	To increase the patient experience of the TH CAMHS triage. To increase the number of patients and carers who feel listened to and understood.	Tower Hamlets CAMHS - Triage
140980	CAMHS Provider Collaborative SHNA Action Plan	To plan and drive improvement actions following SHNA	NCEL Provider Collaborative
141938	Inequalities in South Luton Project	Purpose Statement: To improve mental health for children and young people living in the diverse communities of South Luton. Population Level Drivers: - Meeting MH Community Needs - Developing Community MH Assets	South Luton
141939	Equality QI project	To increase Newham Talking Therapies referrals from black males aged 18-25 years old from 15.5% to 18% percentage by December 2023	Newham Talking Therapies
142102	Increasing access to brief interventions and support for people who are presenting to CMHT with increasing distress	The Project Group aims to develop clinical offers for service users whose needs increase but who do not need level of intensity of service provided by Crisis Resolution and Home Treatment Service but for whom planned, prompt, targeted short term intervention is likely to reduce distress, promote solutions and prevent further deterioration or relapse in mental state. The SMART aim will be developed as soon as we have some detailed baseline data/measures worked up. It is likely to relate to decreased use of CRHT/Out of Hours/Duty for repeat calls, and increased service user satisfaction (focus group)	Bedford CMHTs
142144	Reduce Secure Ambulance Spend by x% in City & Hackney by 30-Apr-22	To improve the value for money offered by service user transport in the City & Hackney Mental Health Directorate, by 30 June 2022. The improvement will be two-fold: to increase service user satisfaction with the service by x% and to reduce the cost associated with the service by £x.	City and Hackney Homerton East Wing
142430	Getting the right support at the right time for people with learning disabilities in Hackney	To reduce the waiting times for all disciplines and make sure people with learning disabilities get the right support at the right time, whilst also improving staff and service user satisfaction.	City and Hackney, ILDS
142587	Cauldwell Medical Centre Chronic Kidney Disease Coding	To increase the number of patients in the QOF CKD register from 32.75% of predicted (131 patients) to 60% of predicted (240 patients) in 12 months.	Cauldwell Medical Centre
142888	Improving the Cardiometabolic Health of service users on Broadgate	Achieve a 5% reduction in median baseline body weight amongst Broadgate inpatients over the next 4 months.	Broadgate Ward

142999	How can we improve the routine attendance rates at P2R?	<p>To reduce the non-attendance /DNA rates for routine appointments at P2R (by % by ? date) QI project ? to reduce DNA rate at all clinical and keyworker appts Background P2R is a drug and alcohol service with main hubs in Bedford and Dunstable, providing drug and alcohol recovery services to people living in Bedford Borough and Central Bedfordshire. ELFT has held the contract for services since 2015. The service provides support through recovery work sessions (psychosocial interventions), needle exchange services, group work, physical health assessments and medical assessments for prescribed medication initiation and review. At the point of the first national lockdown for Covid in March 2020, the service operated a face to face service for clients for all their appointments, in common with most community services. After the lockdown, almost all interactions became remote using a combination of telephone and video calls. The lockdown also led to a rapid change in other functions of the service, including the administration of prescriptions. Prior to lockdown, clients would almost always collect their own prescriptions during a ?key working? session with their ?keyworker?; after lockdown, clients were no longer seen for key working sessions face to face and prescriptions were couriered in bulk to pharmacies. While this allowed continuity of treatment, it introduced a break in the normal cycle of client engagement with the service. As the first lockdown went on for so long, it led to a fundamental change in normal ways of working. It became clear over the first six to twelve months that clients were not answering phone calls to keyworkers. When clients had previously been seen face to face, their prescription would have been held back at the treatment hub if they did not attend a booked appointment; this allowed for close monitoring of compliance with treatment and early intervention by the keyworker if the client did not attend. It also ensured that clients who may have been engaging in riskier practice and not collecting or taking their medication as prescribed, were identified quickly and additional contact could be attempted in a timely way. As prescriptions were sent out in bulk, it became more difficult to stop or hold prescriptions in a timely way when someone did not attend an appointment or answer their phone. It could be two or three weeks between a missed appointment and a prescription being held back at the hub, as prescriptions were typically sent out at least 2 weeks in advance of the start date. This was to ensure there was continuity of treatment and that our pharmacy colleagues, also under enormous workload pressure in the community, were able to plan ahead for observed consumption or daily dispensing work. In the initial weeks after lockdown, most clients engaged very well and many had more contact than they may have done if they had only been seen face to face. However, there was a small contingent, around 10% of our population, who were very difficult to engage. This group was those who were homeless or already engaging in risky drug use behaviour prior to lockdown. They became harder to contact and engage with, and many of these clients remained on a supervised consumption regime. Over the following 6 months, there was a gradual rise in the number of other, less risky, clients not engaging well with treatment. In turn, over the next 3-6 months this led to a steep rise in non-attendance at prescriber appointments. On some days this was 100% of appointments, but regularly ran at 50% by mid 2021. This resulted in significant wasted time and resources, including time spent by keyworkers then following up clients who had missed appts, re-bookings and further non-attendance at rebooked appts. In late 2021, prompted by prescribers reporting a very high demand for appointments together with a very high non-attendance rate, a review of how appointments were used was carried out. This revealed that clients were not attending appointments or not answering phone calls with keyworkers up to three months prior to an appointment being booked with a prescriber for a review of their medical treatment. It became clear that an appointment with a prescriber was being used as a final effort to engage a client in treatment, with medication regime review or change being given as a consequence for non-attendance at the medical appointment. The main point that emerged was that medication regime change was only introduced as an idea by many keyworkers once non-attendance had been established for many months. The service operational policy allows for prescriptions to be withheld at much earlier points when a client is disengaged from treatment, but does require the keyworker to ensure the currently-running prescription is proactively stopped. Interventions tried to remedy poor engagement 1. Holding prescription at hub ? generally successful if carried out but could force clients to ?drop off? treatment, so best not to do this at end of the week. Also requires keyworker to proactively stop a current prescription to avoid a further 2-3 weeks of medication being dispensed on current regime. 2. Text / phone reminders ? less successful, clients would ignore calls on day of appt if did not want to attend. This was a v good indicator that client would DNA. 3. Sending reminders via pharmacy, similar success to (2) Because of the high workload of keyworkers chasing up clients for prescriber appointments, repeat non-attendance at keyworker appointments prior to non-attendance at prescriber appointments and failure of current service interventions to improve attendance, we decided to use QI approaches to find root causes of all the issues.</p>	Main LEAD members are based at Bedford P2R Drug & Alcohol Services - 21 The Crescent, Bedford, MK40 2RT.
143407	Reducing wait times on the over 13's ASC assessment pathway	Reduce the number of days it takes between someone having their first autism assessment to receiving the outcome of their assessment from an average of 108 days to 60 days by December 2023.	Bedfordshire
143654	WARDS - Working across wards, a review and development of solutions	Improved staff experience (insert measure?) of daily redeployment, through staff engagement and instigating change initiatives (time frame?)	Bedford Hospital NHS Foundation Trust
143995	Reducing Staff Vacancies In The	To reduce Vacancy rate from 16.4% to 10% and Turnover rate from 19% to 15% in Primary Care Directorate by June 2023	

	Primary Care Directorate		
144507	To Improve Communication between GP Teams and ELFT Tower Hamlets Community Health Services	To reduce the percentage of rejected GP referrals out of total GP referrals into Foot Health and Continence Services to less than 20% by May 2024	Beaumont House Mile End Hospital
144674	LGBTQ Network: to increase the membership from 273 to 373 by 30 November 2023	to increase the LGBTQ Network membership from 273 to 373 by 30 November 2023	Corporate
144781	Reduction of mileage claims and reduction in carbon footprint	Reduce costs, reduce Co2	Trustwide
144842	Clerkenwell ward wellbeing project	We aim to improve the wellbeing measures of patient and staff on Clerkenwell Ward by June 2023.	Clerkenwell Ward
144924	PATHWAYS - A new app supporting service-users and staff to visualise the recovery journey.	To improve the tracking, centralisation and digitisation of service-users' progress through their recovery pathway, from admission to discharge by 15% within 12 months.	John Howard Centre
145415	Increasing Equity for BAME Service Users in Forensic Services	To improve BAME service users engagement, experience and outcome in relation to East London Community Forensic Service	East London Community Forensic Service
145686	SPS C&H Assessment QI Project	To provide timely, holistic assessments by reducing waiting time to assessment by 15 % and improve quality of assessment (as agreed by our quality criteria) so that 95% assessments meet criteria by August 2024.	Specialist Psychotherapy Services C&H
145943	Reducing Gender Pay Gap in Doctors at ELFT	To increase the number of interventions within ELFT that specifically target the gender pay gap in medicine	
145991	Walking aid reuse	To reuse an average of 16 walking aids per month in the Newham MSK department by March 2023	Physiotherapy Service, Community Health Newham
146020	Tower Hamlets Extended Primary Care Team - Adult Community Therapy Waiting Times	All new service users accepted to the EPCT therapy waiting list to receive an initial therapy assessment within 6 weeks of referral acceptance	Virtual via MS Teams
146053	Improving referrals for BAME detainees	We aim to see our BAME detainees referred into our service at a proportionate rate as compared to the indigenous population.	Liaison and Diversion Service
146830	Trauma Informed Care on Limehouse Ward	To improve staff and service user satisfaction through adopting trauma informed care approach	Limehouse Ward, John Howard Centre
147021	Access and Flow - CAMHS Newham	Reduce the time Young People in Newham CAMHS wait from referral to assessment to 9 weeks	York House, 411 Barking Rd, London, E13 8AL
147184	Ruby Ward Optimizing Flow	Improve transfers Ruby Ward to the acute wards in NCMH by reducing the length of time on the Triage ward from 13 days to 10 days by August 2023. Improve patient and staff experience of the transfer process by December 2023.	Virtual
147344	To improve quality of care for patients by increasing the substantive/ fixed-term medical workforce in Luton and Bedfordshire by 30% in one year.	To increase the proportion of posts that are substantively filled by 30%	ELFT Luton and Bedfordshire Mental Health
147413	Improve patient experience of transition to adulthood for SCYPS transition caseload.	Improve reported experience of transition from a mean score of 2.2 out of 5 to 4 out of 5 by April 2023.	West Ham Lane Health Centre
147446	Enjoying Work at	By end of June 2024, we aim to increase how much our staff agree with the statement ?I	Tower Hamlets Talking

	Tower Hamlets Talking Therapies	enjoy my work? to 5.5 on a 7 point Likert scale	Therapies
148126	Observations and Therapeutic Engagement	To make observations safe, effective, meaningful and collaborative in the Forensic Service from XXX to XXX by May 2024.	Forensic Directorate
148128	Let's Talk: Improving the Experience of Community Mental Health Services for Black, Asian and Minority Ethnic People in Tower Hamlets, Newham and City and Hackney	To improve the experience of community mental health services for Black, Asian, Minority Ethnic People in Tower Hamlets, Newham and City & Hackney

150191	Patient Flow in Forensic Services	Maintaining Flow; Tackling Stuckness: To ensure our patients are in the minimally restrictive Forensic setting to maximise their quality of life, whilst ensuring services and individuals are safe.	Forensic Services
150298	Central Bedfordshire Medication Flow and Communications Project	Decrease service user dissatisfaction with medication from an average of 11.9% to 10% in Central Bedfordshire community mental health services by September 2024.	Central Bedfordshire
150304	Improve the efficiency of referral to diagnosis pathway for Bedfordshire Chronic Fatigue patients	Aim to reduce the number of weeks patients wait from referral to diagnosis	Bedfordshire
150388	To improve patient attendance at the podiatry clinic within the John Howard Centre	To reduce the number of patients not attending their podiatry appointments by 12.5% ( 2 out of 16 patients DNAs) by the end of August 2024.	John Howard Centre
150408	U of Transport	To reduce forensic services expenditure on transport by 10 percent by end of March 2024	John Howard centre
150454	Admissions Optimisation - Evergreen	Reduce length of stay at inpatient unit	Evergreen CAMHS Tier 4 Inpatient Unit - Luton (BLMK)
150534	Reducing high frequency use of emergency services by mental health service users who self-present.	The aim of the QI project is to reduce mental health high intensity users' self-presentations via Homerton Hospital emergency department by 30% of total attendances by the end of 2024. The QI Project relates to improving the crisis pathway for high intensity users with mental health difficulties. The aim is to support service users by identifying more appropriate pathways for mental health needs as an alternative to emergency department. Objectives: -To support service users by identifying appropriate pathways for mental health needs as alternative to emergency department -To understand gaps in current pathway -To identify current reasons for recurrent attendances -All community mental health services to make clear service provisions -To empower service users to use available resources in the community.	Homerton Hospital and City and Hackney Centre for Mental Health
150818	Tower Hamlets	To achieve 50% recovery rate with Bangladeshi patients accessing Tower Hamlets	Tower Hamlets

Project ID	Project Name	Project Description	Project Location
150871	Talking Therapies Equity Project	To achieve 60% recovery rate with borough's parents accessing Talking Therapies by 2024	Psychological Therapies Service - Tower Hamlets
151212	TH Pharmacy discharge medication service QI project	Increase Discharge Medication Service referrals from 0% to 20% of all discharges from Globe inpatient mental health ward within 6 months.	Mile End Hospital
151220	To improve the waiting list experience for service users	To improve the experience they have on the waiting list and ensure they still feel connected to our service whilst waiting or have other services or activities we can signpost them to.	
151249	Reducing the delayed discharges from 70% to 30 % in CH HTT	Reduce the delayed discharges thereby improve case management	City and Hackney
151306	Improving the recording of fridge temperatures	Improve Record Keeping of Fridge Temperature develop system of daily Resetting of Fridge	John Howard Centre - Morrison and Ludgate Ward
151332	To Improve Young People & Staff Experience of Therapeutic Engagement in CAMHS Inpatient Units	Our Aim Is For 100% Of Therapeutic Observations To Be Completed Including Documented Reasons For Omissions, By December 2024. Outcome measure - % of engagement completed per 24hrs No. of intermittent engagement / 1:1 engagement per 24hrs No. of incidents per 24hrs	Coborn Adolescent Unit
151405	SMI (Severe Mental Illness) Engagement Project within Primary Care Mental Health.	Identify BAME clients on Hatters Health PCN SMI register who have not engaged with primary care mental health service for the last 2 years and improve on engagement and uptake of biopsychosocial intervention from 20% to 80%.	Luton Primary Care Network (Hatters Health and Medics)
151551	Addressing racial and ethnic inequalities in Newham Specialist Psychotherapy Service	Reducing racial and ethnic disparities in access to Newham SPS.	Newham
151561	Making mealtimes safe and comfortable for all: Spotting swallowing difficulties forensic inpatient services	Improving early detection rates of dysphagia in forensic services. To increase non-urgent referral and screen requests from X% to Y% by June 2024. To stabilize referral trends for dysphagia: from up to 90% per being in response to severe needs or incidents, to 50% being in response to early signs of need, by June 2024	East London Foundation Trust, Forensic inpatient secure wards. Westferry, Bow and Clerkenwell wards.
151571	Increasing Psychology Case Consultation Provision To 100% Of The Early Intervention Service Caseload Within 8 Weeks of Acceptance Into The Service	Increase psychology case consultation provision to 100% of the Early Intervention Service (EIS) caseload within 8 weeks of acceptance into the service.	Bedfordshire and Luton Early Intervention Service
151599	The Identity and Intersectionality Project	We want to improve service user experience of care and treatment by ensuring staff are informed of how someone's mental health difficulties can look like with different identities (and intersectionalities).	Newham
151623	Increasing Quality of Feedback from Clinicians to Young People	Enhancing feedback quality from clinicians to young people and reducing timespan of feedback received to within a month	
151683	Improving Service Users' participation into service development.	To improve number of activities with SUs' involvement for our practice to be better informed by SUs' experience.	Bedfordshire and Luton Community Eating Disorders Service for Children and Young People.
151803	Reducing the use of	To reduce the use of disposable cutlery by 80%	..140

151908	Reducing the use of single cutlery	To reduce the use of disposable cutlery by 50%	West Ham Lane
151909	SCYPs NDC Optimising Flow 2023	To have NDC initials seen within 18 weeks and NDC Reviews seen once a year	West Ham Lane
151940	72 Hour Follow-Up	To increase 72 Hour Discharge Follow-up rates to 80% on Onyx ward by August 2024	ELFT, Luton
151942	Reduce the number of incidents reported for quality issues relating to discharge from Royal London Hospital	To reduce the number of reported discharge quality issues by 50% by 03/2024	Mile End
151987	Improving the patient experience of the sickle cell clinics post Covid	Optimising flow in clinics that benefits patient experience	Sickle Cell and Thalaessaemia Service, 19-21 High St South
152093	Improving shared learning from safety incidents	To increase staff's exposure to patient safety learning, as measured by number of staff accessing safety learning material, and number of forums that include safety case material - by the end of Aug 2024	
152113	Reducing DNA Rates and Improving Health Equity in a Specialist CAMHS Neurodevelopmental Service	To reduce the number of DNAs overall & reduce the number of DNAs from those living in neighbourhoods falling within the top 3 deciles of most deprived areas in England.	City & Hackney Specialist CAMHS (Homerton Row)
152117	To Improve the Physical Health of THEIS Service Users by Improving Assessment & Interventions of Physical Health and Lifestyle	To improve the Physical Health of THEIS Service Users by improving Assessment & Interventions of Physical Health Checks and Healthy Lifestyles and achieve >90% PASS on Physical Health Checks aligned to CQUIN Data	THEIS & Tower Hamlets
152261	Improve anti-coagulation control for heart valve patients	6 months after implementing the changes 20% of our patients with mechanical heart valves will have LMMH if their INR is below their range.	Twinwoods
152560	Cultural Neuropsychology	To be make our neuropsychological practice more culturally inclusive.	Luton and Bedfordshire MAS
152597	Improving access to Eating Disorder Support for residents of Newham	We are aiming to improve access to Eating Disorder Support for residents of Newham by 100% by December 2023	Mile End Hospital
152840	Reducing falls on Sally Sherman ward	To reduce falls rate on Sally Sherman ward by 30% (from 5.4 to 3.7 per 1,000 occupied bed days) by April 2024	East Ham Community Centre
152861	Triple Aim - People with learning disabilities who present with behaviours that challenge living in the London borough of Newham	Improving the quality of life for people with learning disabilities living in Newham	29 Romford Road, E15 4LY
