

Increasing staff members satisfaction and enjoyment at work

Aim

- To improve staff satisfaction and wellbeing so that staff are better able to meet the needs of their service users

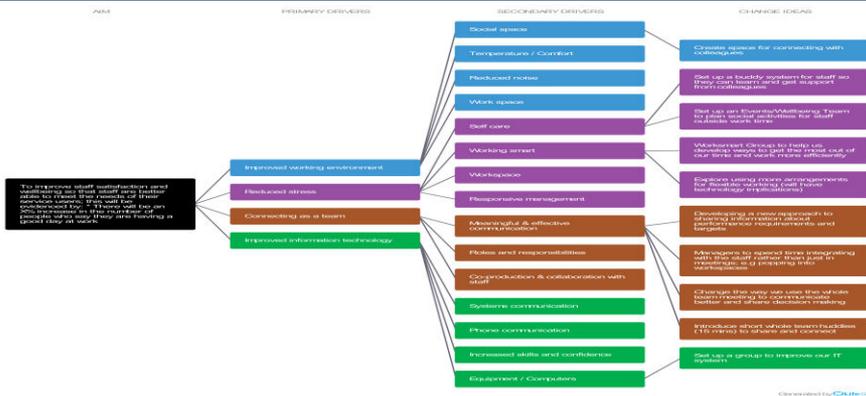

Why is this important to service users and carers?

This project is working to improve staff satisfaction and overall well-being in their working environment. This is really important to the quality of the service overall and the experiences of our clients.

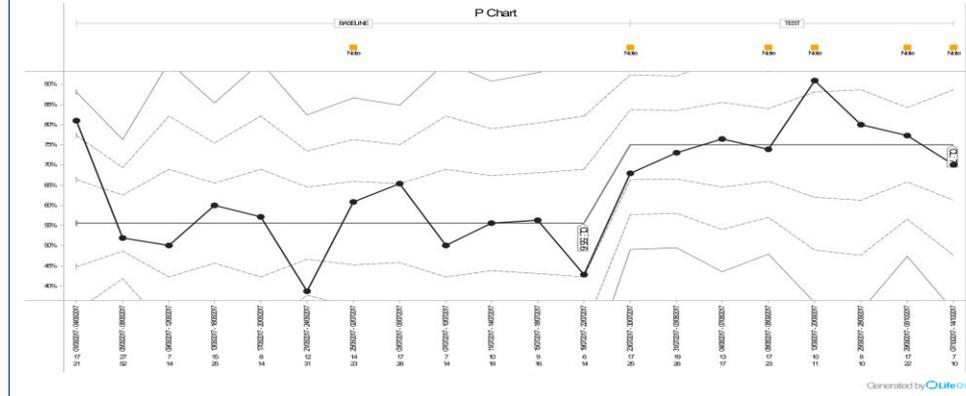

Tests of Change

- Changes to the team meeting
 - Kanban Board
 - Work smart group
- Equipping clinical rooms
 - Car parking

Data

Learning and what next?

Due to the transition of the service to a different provider, the project had to close. However, the positive changes were imbedded into practice and continued with the alternate provider
